

# In Memory of Panos Ghekas + 2015

Panos Ghekas was an enthusiastic musician and a creative innovator in the world of virtual organs. He worked with both jOrgan and GrandOrgue virtual organ softwares. He passed away in September 2015.

In 2010 he made his version of Jeuxdorgue 1, the G. F. Walther organ in Oberhausbergen, which was available as a soundfont trough <http://www.jeuxdorgues.com/>

In memory of Panos, his disposition has been updated for jOrgan 3.20. For convenience of the user, the elements have been sorted into groups, and some graphics were renamed. Only one significant change was made to Panos' disposition: a Fluidsynth reverb system was added.

The soundfont had a mild stereo pan added, along with scaled releases. A few samples were re-looped.
