

Reverb Analysis, Trinity Lutheran Church, Kaukauna, Wisconsin, U.S.A.

Longest harmonic: 2 sec. FS Reverb setting: Size: **0.70**

Damping: 3500 Hz harmonic $1.11 \cdot 1 - 1.11 / 2 / 2 = \mathbf{0.2775}$

Width = 500 Hz harmonic $1.25 \cdot 1.25 / 2 / 4 = \mathbf{0.15}$

For better results, keep the Fluidsynth Reverb level lower. Around 0.10 works for me.
